VOLUME 52 · SUBJECT INDEX

Absorption, Physiologically based pharmacokinetic model for acetone **344**
Acetone, Physiologically based pharmacokinetic model for acetone **344**
Acute myeloid leukaemia, Risk of acute myeloid leukaemia and multiple myeloma in workers exposed to benzene **380**
Aerosol, Occupational exposure to inhalable and total aerosol in the primary nickel production industry **793**
Age coefficients, Prediction equations for balance measured as sway speed by head tracking with eyes open and closed **544**
Agriculture
Chronic lymphocytic leukaemias and non-Hodgkin's lymphomas by histological type in farming-animal breeding workers **374**
Work related distal airway obstruction in an agricultural population **581**
Airflow limitation, Respiratory health of workers exposed to metal dusts and foundry fumes in a copper refinery **204**
Air pollution, indoor, Ventilation rate in office buildings and sick building syndrome **709**
Airway obstruction, Work related distal airway obstruction in an agricultural population **581**
Airway reactivity, Airway responsiveness and job selection **745**
Allergic alveolitis, Occupational hypersensitivity pneumonitis in Japan **570**
Allergy, Oilseed rape and bronchial reactivity **575**
Allergy to laboratory animals, Allergy to laboratory animals **129**
Aluminium
Effect of different exposure compounds on urinary kinetics of aluminium and fluoride in industrially exposed workers **396**
Further information on aluminium inhalation in silicosis **778**
Amalgam, People with high mercury uptake from their own dental amalgam fillings **124**
Aminotransferases, Hepatic ultrasonic changes in workers exposed to perchloroethylene **679**
Analysis, Lead and cadmium in human placentas and maternal and neonatal blood (in a heavily polluted area) measured by graphite furnace atomic absorption spectrometry **229**
Animal breeding, Chronic lymphocytic leukaemias and non-Hodgkin's lymphomas by histological type in farming-animal breeding workers **374**
Antiandrogenic, Study of morbidity of personnel with potential exposure to vinclozolin **233**
Antibodies to adducts, Evaluation of biomarkers in plasma, blood, and urine samples from coke oven workers **750**
Arsenic, Cancers related to exposure to arsenic at a copper smelter **28**
Asbestos
Decline in annual lung function in workers exposed to asbestos with and without pre-existing fibrotic changes on chest radiography **368**
Differences in occupational mortality from pleural cancer, peritoneal cancer, and asbestosis **775**
Mortality and cancer morbidity in workers from an aluminium smelter with prebaked carbon anodes—part I **242**
Pleural malignant mesothelioma and non-occupational exposure to asbestos in Casale Monferrato, Italy **362**
Potential public health problems of asbestos in Jamaica **214**
Radiological changes in asbestos cement workers **20**
Asbestosis, Tumour necrosis factor-α *(TNF-α)* in patients who have asbestosis and develop cancer **316**
Assessment, Assessment of exposure to environmental pollutants **562**
Asthma
Asthmatic symptoms and volatile organic compounds, formaldehyde, and carbon dioxide in dwellings **388**
In vivo models of occupational asthma due to low molecular weight chemicals **539**
New method for an occupational dust challenge test **54**
Atopy
Allergy to laboratory animals **129**
Longitudinal study of the health of cotton workers **328**
Pre-employment screening among trainee bakers **279**

Back pain
Back pain and male parenthood **699**
Back pain and parenthood **51**
Manual handling activities and risk of low back pain in nurses **160**
Bakers, Pre-employment screening among trainee bakers **279**
Benzene
Biological monitoring of exposure to benzene **611**
Haematopoietic cancer mortality among vehicle mechanics **673**
Risk of acute myeloid leukaemia and multiple myeloma in workers exposed to benzene **380**
Benzo(a)pyrene, Significance of dermal and respiratory uptake in creosote workers **196**
Biological exposure indices, Evaluation of biomarkers for occupational exposure to benzene **528**
Biological monitoring
Effect of dietary intake of trimethylamine on human metabolism of the industrial catalyst dimethylethylamine **478**
Effect of different exposure compounds on urinary kinetics of aluminium and fluoride in industrially exposed workers **396**
Monitoring of exposure to methylpentanes by diffusive sampling and urine analysis for alcoholic metabolites **757**
Significance of dermal and respiratory uptake in creosote workers **196**
Biomarkers
Biological monitoring of exposure to benzene **611**
Evaluation of biomarkers in plasma, blood, and urine samples from coke oven workers **750**
Biomonitoring
Evaluation of biomarkers for occupational exposure to benzene **528**
Study of morbidity of personnel with potential exposure to vinclozolin **233**
Bladder cancer, Bladder cancer among French farmers **587**
Blood, Lead and cadmium in human placentas and maternal and neonatal blood (in a heavily polluted area) measured by graphite furnace atomic absorption spectrometry **229**
Blood lead, Substantial decrease of blood lead in Swedish children, 1978–94, associated with petrol lead **764**
Blood pressure, Seasonal changes in ambulatory blood pressure in employees under different indoor temperatures **715**
Book reviews
Age-dependent Doses to Members of the Public from Intakes of Radionuclides **847**
Asthma at work **784**
Cancer treatment **847**
Cellular and molecular effects of UVA and UVB **287**
Comparative Biology of the Normal Lung **783**
Environmental and occupational risks of health care **216**
Environment Health Risks and Public Policy **495**
Epidemiology of Clinical Allergy **783**
Gardner's Chemical Synonyms and Trade Names **496**
Laboratory environment **216**
Occupational Health 3rd ed. **624**
Occupational Health and National Development **624**
Occupational Health Decennial Supplement **623**
Occupational Neurology and Clinical Neurotoxicology **495**
Paraquat Poisoning **784**
Practical Guide to the Determination of Human Exposure to Radiofrequency Fields **496**
Science and Judgement in Risk Assessment **784**
Textbook of Clinical Occupational and Environmental Medicine **559**
Topics in Biological Monitoring (a compendium of essays by members of the ACGIH Biological Exposures Indices Committee) **847**
Trends in Cancer Incidence and Mortality **559**
Veterans and Agent Orange **144**
Wilderness Medicine **560**
Work and Aging **495**
Work Related Musculoskeletal Disorders (WMSDs) **496**
Borates, Sex ratio of offspring of men exposed to sodium borates **284**
Bronchial dysplasia, Bronchial dysplasia induced by radiation in miners exposed to ^{222}Rn progeny **82**
Bronchial reactivity, Oilseed rape and bronchial reactivity **575**
Building age, Influence of indoor air quality and personal factors on the sick building syndrome (SBS) in Swedish geriatric hospitals **170**
Building ventilation, Ventilation rate in office buildings and sick building syndrome **709**

Businesses, How have Zambian businesses reacted to the HIV epidemic? **565**
Butchers, Mortality of butchers and cooks identified from the 1961 census of England and Wales **157**
Byssinosis, Byssinosis in Guangzhou, China **268**

Cadmium
Association between NAG-B and cadmium in urine with no evidence of a threshold **177**
Decreased glomerular filtration rate in solderers exposed to cadmium **818**
Mortality of copper cadmium alloy workers with special reference to lung cancer and non-malignant diseases of the respiratory system, 1946–92 **804**
Urinary N-acetyl-β-D-glucosaminidase (NAG) and exposure to inorganic lead **285**
Cancer
Cancer in printing workers in Denmark **738**
Cancers related to exposure to arsenic at a copper smelter **28**
Factors affecting recognition of cancer risks of nuclear workers **515**
Occupational exposure to hydrazine and subsequent risk of cancer **43**
Pleural malignant mesothelioma and non-occupational exposure to asbestos in Casale Monferrato, Italy **362**
Cancer, bladder, Mortality and cancer morbidity in workers from an aluminium smelter with prebaked carbon anodes—part II **250**
Cancer, lung
Assessment of risk of lung cancer among mild steel and stainless steel welders **284**
Mortality and cancer morbidity in workers from an aluminium smelter with prebaked carbon anodes—part II **250**
Cancer, stomach, Does occupational exposure to dust prevent colorectal cancer? **145, 699**
Carbon disulphide, Polyneuropathy induced by carbon disulphide in viscose rayon workers **404**
Carbon monoxide, Mortality and cancer morbidity in workers from an aluminium smelter with prebaked carbon anodes—part III **255**
Carbon tetrachloride, Hepatic function in workers occupationally exposed to carbon tetrachloride **508**
Carcinogenesis, Risk of gastric cancer in pneumoconiotic coal miners and the effect of respiratory impairment **606**
Cardiovascular disease, Diabetes mellitus and arsenic exposure **773**
Carpal tunnel syndrome, Bilateral median and ulnar neuropathy at the wrist in a parquet floorer **211**
Case-control studies, Empirical evaluation of the influence of control selection schemes on relative risk estimation **489**
Catecholamines, Lorry drivers' work stress evaluated by catecholamines excreted in urine **464**
Causes, Cause of occupational disease **289**
Chelating agents, Provocative chelation with DMSA and EDTA **13**
Chemical products, National survey on the use of chemicals in the working environment **454**
Chest radiography,
Chest radiography and high resolution computed tomography in the evaluation of workers exposed to silica dust **262**
Radiological changes in asbestos cement workers **20**
Chewing, People with high mercury uptake from their own dental amalgam fillings **124**
Children
Back pain and parenthood **51**
Incidence of leukaemia and lymphoma in young people in the vicinity of the petrochemical plant at Baglan Bay, South Wales, 1974 to 1991 **225**
Chlorobenzene, Effect of variation of exposure to airborne chlorobenzene on internal exposure and concentrations of urinary metabolite **65**
4-Cholorocatechol, Effect of variation of exposure to airborne chloro-benzene on internal exposure and concentrations of urinary metabolite **65**
Cholinesterase, Repeatability and validity of a field kit for estimation of cholinesterase in whole blood **57**
Chromium
Measurement of ras p21 in the urine of people occupationally exposed to chromium compounds **556**
Study of chromium induced allergic contact dermatitis with 54 volunteers **701**
Chronic bronchitis
Contrasting geographical distribution of mortality from pneumoconiosis and chronic bronchitis and emphysema in British coal miners **554**
Work related distal airway obstruction in an agricultural population **581**
Chronic lymphocytic leukaemia, Chronic lymphocytic leukaemias and non-Hodgkin's lymphomas by histological type in farming-animal breeding workers **374**
Chronic toxicants, National survey on the use of chemicals in the working environment **454**
Classification, Preliminary experimental findings using intraperitoneal assays to determine carcinogenic potential of man made mineral fibres **700**
Coal miners, Risk of gastric cancer in pneumoconiotic coal miners and the effect of respiratory impairment **606**
Coal mining
Airway responsiveness and job selection **745**
Coal mining, emphysema, and compensation revisited **71**
Coal workers' pneumoconiosis
Contrasting geographical distribution of mortality from pneumoconiosis and chronic bronchitis and emphysema in British coal miners **554**
Epidemiological evaluation of release of monocyte TNF-α as an exposure and effect marker in pneumoconiosis **441**
Cobalt, Maintenance of stellite and tungsten carbide saw tips **185**
Cohort studies
Cancer incidence in Swedish sterilant workers exposed to ethylene oxide **154**
Exposure to styrene and chronic health effects **320**
Methods in cohort studies **621**
Colorectal cancer, Does occupational exposure to dust prevent colorectal cancer? **145**
Colour vision, Impaired colour discrimination among workers exposed to styrene **534**
Compensation
Cause of occupational disease **289**
Cost and determinants of morbidity from work related disabling injuries in Taiwan **138**
Compliance, Needs of occupational exposure sampling strategies for compliance and epidemiology **705**
Computed tomography, Chest radiography and high resolution computed tomography in the evaluation of workers exposed to silica dust **262**
Confounding, Back pain and parenthood **51**
Controls, Methods in cohort studies **621**
Cooks, Mortality of butchers and cooks identified from the 1961 census of England and Wales **157**
Copper refinery, Respiratory health of workers exposed to metal dusts and foundry fumes in a copper refinery **204**
Cost, morbidity, Cost and determinants of morbidity from work related disabling injuries in Taiwan **138**
Cotton
Byssinosis in Guangzhou, China **268**
Longitudinal study of the health of cotton workers **328**
Coxiella burnetii, Risk of acquiring Q fever on farms **644**
Cytochrome *P*-450, Induction of *P*-450 in workers exposed to dioxin **86**

Decompression, Electroencephalographic study of divers with histories of neurological decompression illness **451**
Dental assistants, Effect of occupational exposure to mercury vapour on the fertility of female dental assistants **214**
Dental surgeons, Pilot study of the effect of low level exposure to mercury on the health of dental surgeons **813**
Dentists, Neuropathy in female dental personnel exposed to high frequency vibrations **116**
Deterioration of pulmonary function, Effects within the week on forced vital capacity are correlated with long term changes in pulmonary function **192**
Diagnosis, New method for an occupational dust challenge test **54**
Diagnostic criteria, Occupational hypersensitivity pneumonitis in Japan **570**
Dibenzofurans
Dioxin concentrations in the blood of workers at municipal waste incinerators **385**
Occupational exposure to polychlorinated dibenzo-p-dioxins and dibenzofurans in a magnesium production plant **823**

Dibenzo-p-dioxins, Occupational exposure to polychlorinated dibenzo-p-dioxins and dibenzofurans in a magnesium production plant **823**
Diffusive sampling, Monitoring of exposure to methylpentanes by diffusive sampling and urine analysis for alcoholic metabolites **757**
Digital vasoconstriction, Acute effects of vibration on digital circulatory function in healthy men **834**
Diisocyanates, Effects within the week on forced vital capacity are correlated with long term changes in pulmonary function **192**
Dimercaptosuccinic acid, Provocative chelation with DMSA and EDTA **13**
Dioxin
Dioxin concentrations in the blood of workers at municipal waste incinerators **385**
Induction of *P*-450 in workers exposed to dioxin **86**
Disability, occupational, Cost and determinants of morbidity from work related disabling injuries in Taiwan **138**
Disease models, In vivo models of occupational asthma due to low molecular weight chemicals **539**
Disease risks, Investigation of disease risks in small areas **785**
Diseases, occupational, Cause of occupational disease **289**
Diver, Electroencephalographic study of divers with histories of neurological decompression illness **451**
DMSA, Dimercaptosuccinic acid (DMSA) **846**
Dock workers, Evaluation of the respiratory health of dock workers who load grain cargoes in British Columbia **273**
Dose-response
Cancers related to exposure to arsenic at a copper smelter **28**
Dose-response relation between exposure to two types of hand-arm vibration and sensorineural perception of vibration **332**
Dust
Are the respiratory health effects found in manufacturers of ceramic fibres due to the dust rather than the exposure to fibres? **105**
Does occupational exposure to dust prevent colorectal cancer? **699**
Dust challenge, New method for an occupational dust challenge test **54**
Dust exposure, Geltape method for measurement of work related surface contamination with cobalt containing dust **827**

Electroencephalography, Electroencephalographic study of divers with histories of neurological decompression illness **451**
Electromagnetic fields, Mortality and cancer morbidity in workers from an aluminium smelter with prebaked carbon anodes—part I **242**
Electromyography
Acute effects of vibration from a chipping hammer and a grinder on the hand-arm system **731**
Combined electroneurographic and electromyographic studies in lead workers **415**
Electroneurography, Combined electroneurographic and electromyographic studies in lead workers **415**
Elements contained in semen, Some altered concentrations of elements in semen of workers exposed to trinitrotoluene **842**
Emergency response, Thetford plastics fire, October 1991 **694**
Emphysema
Coal mining, emphysema, and compensation revisited **71**
Contrasting geographical distribution of mortality from pneumoconiosis and chronic bronchitis and emphysema in British coal miners **554**
Endotoxin, Longitudinal study of the health of cotton workers **328**
Environment, Assessment of exposure to environmental pollutants **562**
Environmental cadmium, Mortality of inhabitants in an area polluted by cadmium **181**
Environmental exposure, Enzymuria in a population living near a cadmium battery plant **770**
Environmental lead exposure, Substantial decrease of blood lead in Swedish children, 1978–94, associated with petrol lead **764**
Environmental pollution, Individual exposure to particulate air pollution and its relevance to thresholds for health effects **790**
Epidemiological methods, Empirical evaluation of the influence of control selection schemes on relative risk estimation **489**
Epidemiology
Cancer incidence and mortality near the Baglan Bay petrochemical works, South Wales **217**
Does occupational exposure to dust prevent colorectal cancer? **145**
Health effects of refractory ceramic fibres **433**
Manual handling activities and risk of low back pain in nurses **160**
Needs of occupational exposure sampling strategies for compliance and epidemiology **705**
Predictors of spirometric test failure **547**
Risk of acute myeloid leukaemia and multiple myeloma in workers exposed to benzene **380**
Work related musculoskeletal disorders and ergonomic stressors in the South African workforce **46**
Ergonomic stressors, Work related musculoskeletal disorders and ergonomic stressors in the South African workforce **46**
Erythrocyte pyrimidine 5′-nucleotidase (P5N), Evaluation of lead exposure in workers at a lead-acid battery factory in Korea **484**
Ethylene oxide, Cancer incidence in Swedish sterilant workers exposed to ethylene oxide **154**
Exposure
Assessment of exposure to environmental pollutants **562**
Occupational exposure to hydrazine and subsequent risk of cancer **43**
Exposure assessment, Exposure assessment in industry specific retrospective occupational epidemiology studies **625**
Exposure data matrix, Exposure assessment in industry specific retrospective occupational epidemiology studies **625**

Farmers, Bladder cancer among French farmers **587**
Farm workers, Risk of acquiring Q fever on farms **644**
Fertility
Effect of occupational exposure to mercury vapour on the fertility of female dental assistants **214**
Sex ratio of offspring of men exposed to sodium borates **284**
Fibres, Differential release of superoxide anions by macrophages treated with long and short fibre amosite asbestos is a consequence of differential affinity for opsonin **92**
Fibres, ceramic
Are the respiratory health effects found in manufacturers of ceramic fibres due to the dust rather than the exposure to fibres? **105**
Study of the respiratory health of employees in seven European plants that manufacture ceramic fibres **97**
Field kit, Repeatability and validity of a field kit for estimation of cholinesterase in whole blood **57**
Fishermen, Mortality from lung cancer and other diseases related to smoking among fishermen in north east Italy **150**
Fluoride, Effect of different exposure compounds on urinary kinetics of aluminium and fluoride in industrially exposed workers **396**
Fluoride
Mortality and cancer morbidity in workers from an aluminium smelter with prebaked carbon anodes—part I **242**
Mortality and cancer morbidity in workers from an aluminium smelter with prebaked carbon anodes—part III **255**
Follow up studies, Empirical evaluation of the influence of control selection schemes on relative risk estimation **489**
Forced vital capacity, Effects within the week on forced vital capacity are correlated with long term changes in pulmonary function **192**
Formaldehyde, Asthmatic symptoms and volatile organic compounds, formaldehyde, and carbon dioxide in dwellings **388**
Foundry, Ocular effects of exposure to triethylamine in the sand core cold box of a foundry **337**
Fuel oil ash, Upper airway response in workers exposed to fuel oil ash **353**

Gastric cancer, Risk of gastric cancer in pneumoconiotic coal miners and the effect of respiratory impairment **606**
Gastrointestinal malignancies, Mortality and cancer incidence among secondary lead smelter workers **667**
Geltape assessment, Geltape method for measurement of work related surface contamination with cobalt containing dust **827**
General population survey, Predictors of spirometric test failure **547**
Genotoxic monitoring, Determination of low level exposure to volatile aromatic hydrocarbons and genotoxic effects in workers at a styrene plant **420**
Geographical distribution, Contrasting geographical distribution of mortality from pneumoconiosis and chronic bronchitis and emphysema in British coal miners **554**
Gestational age, Physical work load and gestational age at delivery **313, 782**

Glomerular filtration rate, Decreased glomerular filtration rate in solderers exposed to cadmium **818**
Grain dust, Evaluation of the respiratory health of dock workers who load grain cargoes in British Columbia **273**
Guthion, Neurotoxicity among pesticide applicators exposed to organophosphates **648**

Haematopoietic neoplasms, Haematopoietic cancer mortality among vehicle mechanics **673**
Hand-arm vibration
Acute effects of vibration from a chipping hammer and a grinder on the hand-arm system **731**
Dose-response relation between exposure to two types of hand-arm vibration and sensorineural perception of vibration **332**
Hand transmitted vibration, Dose-response relation for vascular disorders induced by vibration in the fingers of forestry workers **722**
Hard-metal lung disease, Maintenance of stellite and tungsten carbide saw tips **185**
Head tracking, Prediction equations for balance measured as sway speed by head tracking with eyes open and closed **544**
Healthy worker effect, Airway responsiveness and job selection **745**
Heat stress, Mortality and cancer morbidity in workers from an aluminium smelter with prebaked carbon anodes—part I **242**
Hepatic function, Hepatic function in workers occupationally exposed to carbon tetrachloride **508**
Hepatitis A, Need for vaccination of sewer workers against leptospirosis and hepatitis A **505**
Hepatotoxicity, Hepatic ultrasonic changes in workers exposed to perchloroethylene **679**
Hexachlorophenols, Differences in the effects of two hexachlorophenols on superoxide generation by polymorphonuclear leucocytes stimulated by N-formyl-methionyl-leucyl-phenylalanine and phorbol myristate acetate **71**
HIV, How have Zambian businesses reacted to the HIV epidemic? **565**
Home care, Reports of work related musculoskeletal injury among home care service workers compared with nursery school workers and the general population of employed women in Sweden **686**
Hydrazine, Occupational exposure to hydrazine and subsequent risk of cancer **43**
Hygiene standard, Diabetes mellitus and arsenic exposure **773**
Hypersensitivity pneumonitis, Occupational hypersensitivity pneumonitis in Japan **570**

Indoor temperature, Seasonal changes in ambulatory blood pressure in employees under different indoor temperatures **715**
Industrial exposure, National survey on the use of chemicals in the working environment **454**
Industrial pollution, Sex ratios of births, mortality, and air pollution **164**
Inhalable, Occupational exposure to inhalable and total aerosol in the primary nickel production industry **793**
Injury reports, Reports of work related musculoskeletal injury among home care service workers compared with nursery school workers and the general population of employed women in Sweden **686**
Inorganic lead, Mortality and cancer incidence among secondary lead smelter workers **667**
Ischaemic heart diseases, Mortality and cancer incidence among secondary lead smelter workers **667**
Isoenzymes, Association between NAG-B and cadmium in urine with no evidence of a threshold **177**

Job exposure matrix, Occupational exposures estimated by means of job exposure matrices in relation to lung function in the PAARC survey **634**

Kinetochore positive micronuclei, Determination of low level exposure to volatile aromatic hydrocarbons and genotoxic effects in workers at a styrene plant **420**

Lead
Evaluation of lead exposure in workers at a lead-acid battery factory in Korea **484**
Cancer and occupational exposure to inorganic lead compounds **73**
Combined electroneurographic and electromyographic studies in lead workers **415**
Cumulative exposure to inorganic lead and neurobehavioural test performance in adults **2**
Provocative chelation with DMSA and EDTA **13**
Urinary N-acetyl-β-D-glucosaminidase (NAG) and exposure to inorganic lead **285**
Lead smelter workers, Mortality and cancer incidence among secondary lead smelter workers **667**
Leptospirosis, Need for vaccination of sewer workers against leptospirosis and hepatitis A **505**
Leukaemia
Cancer incidence in Swedish sterilant workers exposed to ethylene oxide **154**
Incidence of leukaemia and lymphoma in young people in the vicinity of the petrochemical plant at Baglan Bay, South Wales, 1974 to 1991 **225**
Lifestyle, Work characteristics and lifestyle as predictors in the development of chronic non-specific lung disease among elderly municipal employees **134**
Lorry drivers, Lorry drivers' work stress evaluated by catecholamines excreted in urine **464**
Lung cancer
Mortality of butchers and cooks identified from the 1961 census of England and Wales **157**
Mortality of copper cadmium alloy workers with special reference to lung cancer and non-malignant diseases of the respiratory system, 1946–92 **804**
Lung disease, chronic non-specific, Work characteristics and lifestyle as predictors in the development of chronic non-specific lung disease among elderly municipal employees **134**
Lung function
Evaluation of the respiratory health of dock workers who load grain cargoes in British Columbia **273**
Occupational exposures estimated by means of job exposure matrices in relation to lung function in the PAARC survey **634**
Respiratory health of young shipyard welders and other tradesmen studied cross sectionally and longitudinally **33**
Lymphoma, Incidence of leukaemia and lymphoma in young people in the vicinity of the petrochemical plant at Baglan Bay, South Wales, 1974 to 1991 **225**

Manganese, Dimercaptosuccinic acid (DMSA) **846**
Man made mineral fibres, Preliminary experimental findings using intraperitoneal assays to determine carcinogenic potential of man made mineral fibres **700**
Man made vitreous fibres, Health effects of refractory ceramic fibres **433**
Mechanical shocks, Acute effects of vibration from a chipping hammer and a grinder on the hand-arm system **731**
Mechanical ventilation, Influence of indoor air quality and personal factors on the sick building syndrome (SBS) in Swedish geriatric hospitals **170**
Medical management, Thetford plastics fire, October 1991 **694**
Mercury
Effect of occupational exposure to mercury vapour on the fertility of female dental assistants **214**
People with high mercury uptake from their own dental amalgam fillings **124**
Pilot study of the effect of low level exposure to mercury on the health of dental surgeons **813**
Mesothelioma, Differences in occupational mortality from pleural cancer, peritoneal cancer, and asbestosis **775**
Mesothelioma, pleural malignant, Pleural malignant mesothelioma and non-occupational exposure to asbestos in Casale Monferrato, Italy **362**
Meta-analysis, Cancer and occupational exposure to inorganic lead compounds **73**
Metals, heavy, Lead and cadmium in human placentas and maternal and neonatal blood (in a heavily polluted area) measured by graphite furnace atomic absorption spectrometry **229**
Methacholine, Airway responsiveness and job selection **745**
Method of limits, Neurotoxicity among pesticide applicators exposed to organophosphates **648**
Methodology, Methodology series **561**
Methylpentanes, Monitoring of exposure to methylpentanes by diffusive sampling and urine analysis for alcoholic metabolites **757**
Mild steel, Assessment of risk of lung cancer among mild steel and stainless steel welders **284**
Miners, Bronchial dysplasia induced by radiation in miners exposed to ^{222}Rn progeny **82**

Misclassification, Non-differential misclassification and bias towards the null **557**
Misclassification errors, Individual exposure to particulate air pollution and its relevance to thresholds for health effects **790**
Model, pharmacokinetic, Effect of variation of exposure to airborne chlorobenzene on internal exposure and concentrations of urinary metabolite **65**
Mortality
Differences in occupational mortality from pleural cancer, peritoneal cancer, and asbestosis **775**
Does occupational exposure to dust prevent colorectal cancer? **699**
Mortality from lung cancer and other diseases related to smoking among fishermen in north east Italy **150**
Mortality of inhabitants in an area polluted by cadmium **181**
Sex ratios of births, mortality, and air pollution **164**
Multiple myeloma, Risk of acute myeloid leukaemia and multiple myeloma in workers exposed to benzene **380**
Municiple waste incinerators, Dioxin concentrations in the blood of workers at municipal waste incinerators **385**
Musculoskeletal
Reports of work related musculoskeletal injury among home care service workers compared with nursery school workers and the general population of employed women in Sweden **686**
Symptoms of the musculoskeletal system and exposure to magnetic fields in an aluminium plant **524**
Work related musculoskeletal disorders and ergonomic stressors in the South African workforce **46**

***N*-acetyl-β-D-glucosaminidase (NAG)**
Association between NAG-B and cadmium in urine with no evidence of a threshold **177**
Enzymuria in a population living near a cadmium battery plant **770**
Urinary N-acetyl-β-D-glucosaminidase (NAG) and exposure to inorganic lead **285**
Naphthalene, Significance of dermal and respiratory uptake in creosote workers **196**
Nasal lavage, Upper airway response in workers exposed to fuel oil ash **353**
Neoplasms, Cancer and occupational exposure to inorganic lead compounds **73**
Nervous diseases, degenerative, Exposure to styrene and chronic health effects **320**
Neurobehavioural core test battery, Neurobehavioural evaluation of Venezuelan workers exposed to inorganic lead **408**
Neuropathy, Polyneuropathy induced by carbon disulphide in viscose rayon workers **404**
Neuropsychological tests, Cumulative exposure to inorganic lead and neurobehavioural test performance in adults **2**
Neurotoxicity
Combined electroneurographic and electromyographic studies in lead workers **415**
Neurobehavioural evaluation of Venezuelan workers exposed to inorganic lead **408**
Neurotoxins, Cumulative exposure to inorganic lead and neurobehavioural test performance in adults **2**
Nickel, Occupational exposure to inhalable and total aerosol in the primary nickel production industry **793**
Non-Hodgkin's lymphoma, Chronic lymphocytic leukaemias and non-Hodgkin's lymphomas by histological type in farming-animal breeding workers **374**
Non-occupational exposure, Pleural malignant mesothelioma and non-occupational exposure to asbestos in Casale Monferrato, Italy **362**
Nucleotide metabolism, Evaluation of lead exposure in workers at a lead-acid battery factory in Korea **484**
Null hypothesis, Non-differential misclassification and bias towards the null **557**
Nurses, Manual handling activities and risk of low back pain in nurses **160**

Obituary, Obituary of Ronald Epey Lane 1897-1995 **361**
Occupational
Bilateral median and ulnar neuropathy at the wrist in a parquet floorer **211**
Seasonal changes in ambulatory blood pressure in employees under different indoor temperatures **715**
Occupational allergy, Platinum salt sensitivity in refinery workers **661**
Occupational and environmental medicine, Occupational medicine **497**
Occupational and Environmental Medicine, Year of *Occupational and Environmental Medicine* **1**
Occupational asthma, Platinum salt sensitivity in refinery workers **661**
Occupational epidemiology, Lung function and chronic respiratory symptoms of pig farmers **654**
Occupational exposure
Diabetes mellitus and arsenic exposure **773**
Hepatic function in workers occupationally exposed to carbon tetrachloride **508**
Lung function and chronic respiratory symptoms of pig farmers **654**
Occupational exposure to polychlorinated dibenzo-p-dioxins and dibenzofurans in a magnesium production plant **823**
Occupational exposures estimated by means of job exposure matrices in relation to lung function in the PAARC survey **634**
Significance of dermal and respiratory uptake in creosote workers **196**
Occupational health services, Developments in reproductive risk management **294**
Occupational lung diseases, Chronic effects of welding exposure on pulmonary function tests and respiratory symptoms **800**
Occupational medicine, Occupational medicine **781**
Occupational pulmonary disease, Occupational hypersensitivity pneumonitis in Japan **570**
Occupational radiation, Risk of thyroid nodules in subjects occupationally exposed to radiation **500**
Offspring sex ratios, Offspring sex ratios as an index of pollution hazard in residential environments **556**
Oilseed rape, Oilseed rape and bronchial reactivity **575**
Opsonin, Differential release of superoxide anions by macrophages treated with long and short fibre amosite asbestos is a consequence of differential affinity for opsonin **92**
Organic dust, Longitudinal study of the health of cotton workers **328**

Painters, Effects within the week on forced vital capacity are correlated with long term changes in pulmonary function **192**
Pancreatic neoplasms, Exposure to styrene and chronic health effects **320**
Parenthood, Back pain and male parenthood **699**
Patch test, Study of chromium induced allergic contact dermatitis with 54 volunteers **701**
Pathophysiological mechanisms, Acute effects of vibration on digital circulatory function in healthy men **834**
Perchloroethylene, Hepatic ultrasonic changes in workers exposed to perchloroethylene **679**
Personal particulate sampling, Individual exposure to particulate air pollution and its relevance to thresholds for health effects **790**
Pesticides
Bladder cancer among French farmers **587**
Offspring sex ratio as an indicator of reproductive hazards associated with pesticides **429**
Petrochemicals, Incidence of leukaemia and lymphoma in young people in the vicinity of the petrochemical plant at Baglan Bay, South Wales, 1974 to 1991 **225**
Petrochemical works, Cancer incidence and mortality near the Baglan Bay petrochemical works, South Wales **217**
Petrol, Haematopoietic cancer mortality among vehicle mechanics **673**
Pharmacokinetic model, Physiologically based pharmacokinetic model for acetone **344**
Physical work load, Physical work load and gestational age at delivery **313, 782**
Placenta, Lead and cadmium in human placentas and maternal and neonatal blood (in a heavily polluted area) measured by graphite furnace atomic absorption spectrometry **229**
Plasma, Effect of dietary intake of trimethylamine on human metabolism of the industrial catalyst dimethylethylamine **478**
Platinum salt sensitivity, Platinum salt sensitivity in refinery workers **661**
Pleural plaques, Respiratory health of workers exposed to metal dusts and foundry fumes in a copper refinery **204**
Pneumoconiosis, Decline in annual lung function in workers exposed to asbestos with and without pre-existing fibrotic changes on chest radiography **368**
Pollution
Assessment of exposure to environmental pollutants **562**
Offspring sex ratios as an index of pollution hazard in residential environments **556**

Polycyclic aromatic hydrocarbons
Association of exposure to polycyclic aromatic hydrocarbons (estimated from job category) with concentration of 1-hydroxypyrene glucuronide in urine from workers at a steel plant **593**
Evaluation of biomarkers in plasma, blood, and urine samples from coke oven workers **750**
Exposure to polycyclic aromatic hydrocarbons in coal liquefaction workers **600**
Mortality and cancer morbidity in workers from an aluminium smelter with prebaked carbon anodes—part I **242**
Mortality and cancer morbidity in workers from an aluminium smelter with prebaked carbon anodes—part II **250**
Mortality and cancer morbidity in workers from an aluminium smelter with prebaked carbon anodes—part III **255**
Polymorphonuclear leucocytes, Differences in the effects of two hexachlorophenols on superoxide generation by polymorphonuclear leucocytes stimulated by N-formyl-methionyl-leucyl-phenylalanine and phorbol myristate acetate **71**
Polyvinylchloride fire, Thetford plastics fire, October 1991 **694**
Potroom, Symptoms of the musculoskeletal system and exposure to magnetic fields in an aluminium plant **524**
Precaution, Implementation of the precautionary principle in standards for the workplace **304**
Pregnancy
Offspring sex ratio as an indicator of reproductive hazards associated with pesticides **429**
Physical work load and gestational age at delivery **313**
Prevalence odds ratio, Prevalence odds ratio *v* prevalence ratio—a response **781**
Prevalence ratio
Prevalence odds ratio *v* prevalence ratio—a response **781**
Use of the prevalence ratio *v* the prevalence odds ratio in view of confounding in cross sectional studies **494**
Prevention, Need for vaccination of sewer workers against leptospirosis and hepatitis A **505**
Printing work, Cancer in printing workers in Denmark **738**
Prognosis, Prognosis of vibration induced white finger **110**
Progression, Epidemiological evaluation of release of monocyte TNF-α as an exposure and effect marker in pneumoconiosis **441**
Psychological function, Neurobehavioural evaluation of Venezuelan workers exposed to inorganic lead **408**
Psychomotor performance, Pilot study of the effect of low level exposure to mercury on the health of dental surgeons **813**
Public health, Potential public health problems of asbestos in Jamaica **214**
Pulmonary clearance, Risk of gastric cancer in pneumoconiotic coal miners and the effect of respiratory impairment **606**
Pyrene, Significance of dermal and respiratory uptake in creosote workers **196**

Q fever, Risk of acquiring Q fever on farms **644**

Radiation
Bronchial dysplasia induced by radiation in miners exposed to ^{222}Rn progeny **82**
Factors affecting recognition of cancer risks of nuclear workers **515**
Radon, Bronchial dysplasia induced by radiation in miners exposed to ^{222}Rn progeny **82**
Rapid field method, Geltape method for measurement of work related surface contamination with cobalt containing dust **827**
Ras p21, Measurement of ras p21 in the urine of people occupationally exposed to chromium compounds **556**
Repeatability, Repeatability and validity of a field kit for estimation of cholinesterase in whole blood **57**
Reproduction, Developments in reproductive risk management **294**
Reproductive toxicity, Implementation of the precautionary principle in standards for the workplace **304**
Residential exposure, Sex ratios of births, mortality, and air pollution **164**
Respiration, Study of the respiratory health of employees in seven European plants that manufacture ceramic fibres **97**
Respiratory disease
Lung function and chronic respiratory symptoms of pig farmers **654**
Mortality of copper cadmium alloy workers with special reference to lung cancer and non-malignant diseases of the respiratory system, 1946–92 **804**
Respiratory health, Survey of the respiratory health of the workers of a talc producing factory **470**
Respiratory hypersensitivity, In vivo models of occupational asthma due to low molecular weight chemicals **539**
Respiratory symptoms, Are the respiratory health effects found in manufacturers of ceramic fibres due to the dust rather than the exposure to fibres? **105**
Retinol binding protein, Mortality of inhabitants in an area polluted by cadmium **181**
Retrospective studies, Exposure assessment in industry specific retrospective occupational epidemiology studies **625**
Risk assessment, Evaluation of biomarkers for occupational exposure to benzene **528**
Risk model, Dose-response relation for vascular disorders induced by vibration in the fingers of forestry workers **722**
Risk ratio, Non-differential misclassification and bias towards the null **557**
Risks, Developments in reproductive risk management **294**
Rodent inhalation, Health effects of refractory ceramic fibres **433**
Room temperature, Influence of indoor air quality and personal factors on the sick building syndrome (SBS) in Swedish geriatric hospitals **170**
Rotahaler, New method for an occupational dust challenge test **54**

Safety factor, Implementation of the precautionary principle in standards for the workplace **304**
Sampling, Needs of occupational exposure sampling strategies for compliance and epidemiology **705**
Semen, Some altered concentrations of elements in semen of workers exposed to trinitrotoluene **842**
Sensitisation, Allergy to laboratory animals **129**
Sensory and motor function, Neuropathy in female dental personnel exposed to high frequency vibrations **116**
Sewer workers, Need for vaccination of sewer workers against leptospirosis and hepatitis A **505**
Sex ratio
Offspring sex ratio as an indicator of reproductive hazards associated with pesticides **429**
Offspring sex ratios as an index of pollution hazard in residential environments **622**
Sex ratio of offspring of men exposed to sodium borates **284**
Sex ratios of births, mortality, and air pollution **164**
Shipyard, Respiratory health of young shipyard welders and other tradesmen studied cross sectionally and longitudinally **33**
Sick building syndrome
Influence of indoor air quality and personal factors on the sick building syndrome (SBS) in Swedish geriatric hospitals **170**
Management of indoor air quality problems **782**
Ventilation rate in office buildings and sick building syndrome **709**
Silicosis
Chest radiography and high resolution computed tomography in the evaluation of workers exposed to silica dust **262**
Further information on aluminium inhalation in silicosis **778**
Skin contact, Study of chromium induced allergic contact dermatitis with 54 volunteers **701**
Small area
Cancer incidence and mortality near the Baglan Bay petrochemical works, South Wales **217**
Investigation of disease risks in small areas **785**
Smelter, Neurobehavioural evaluation of Venezuelan workers exposed to inorganic lead **408**
Smoking, Mortality from lung cancer and other diseases related to smoking among fishermen in north east Italy **150**
***S*-phenylmercapturic acid,** Biological monitoring of exposure to benzene **611**
Spirometric test failure, Predictors of spirometric test failure **547**
Spirometry
Chronic effects of welding exposure on pulmonary function tests and respiratory symptoms **800**
Decline in annual lung function in workers exposed to asbestos with and without pre-existing fibrotic changes on chest radiography **368**
Study of the respiratory health of employees in seven European plants that manufacture ceramic fibres **97**
Stainless steel, Assessment of risk of lung cancer among mild steel and stainless steel welders **284**
Standards, Developments in reproductive risk management **294**
Static electricity, Influence of indoor air quality and personal factors on the sick building syndrome (SBS) in Swedish geriatric hospitals **170**

Static magnetic field, Symptoms of the musculoskeletal system and exposure to magnetic fields in an aluminium plant **524**
Studies, longitudinal, Respiratory health of young shipyard welders and other tradesmen studied cross sectionally and longitudinally **33**
Styrene
Exposure to styrene and chronic health effects **320**
Impaired colour discrimination among workers exposed to styrene **534**
Superoxide, Differences in the effects of two hexachlorophenols on superoxide generation by polymorphonuclear leucocytes stimulated by N-formyl-methionyl-leucyl-phenylalanine and phorbol myristate acetate **71**
Surface reactivity, Differential release of superoxide anions by macrophages treated with long and short fibre amosite asbestos is a consequence of differential affinity for opsonin **92**
Sway speed, Prediction equations for balance measured as sway speed by head tracking with eyes open and closed **544**
Symptoms, respiratory, Evaluation of the respiratory health of dock workers who load grain cargoes in British Columbia **273**

Talc dust, Survey of the respiratory health of the workers of a talc producing factory **470**
Terpenes, Asthmatic symptoms and volatile organic compounds, formaldehyde, and carbon dioxide in dwellings **388**
Tertiary aliphatic amines, Effect of dietary intake of trimethylamine on human metabolism of the industrial catalyst dimethylethylamine **478**
Thyroid nodules, Risk of thyroid nodules in subjects occupationally exposed to radiation **500**
***Trans,trans*-muconic acid,** Biological monitoring of exposure to benzene **611**
Triethylamine, Ocular effects of exposure to triethylamine in the sand core cold box of a foundry **337**
Trinitrotoluene, Some altered concentrations of elements in semen of workers exposed to trinitrotoluene **842**
Tumour necrosis factor-α
Epidemiological evaluation of release of monocyte TNF-α as an exposure and effect marker in pneumoconiosis **441**
Tumour necrosis factor-α *(TNF-α)* in patients who have asbestosis and develop cancer **316**
Tumours, Health effects of refractory ceramic fibres **433**
Tungsten carbide, Maintenance of stellite and tungsten carbide saw tips **185**

Ulnar nerve, Bilateral median and ulnar neuropathy at the wrist in a parquet floorer **211**
Ultrasonic imaging, Hepatic ultrasonic changes in workers exposed to perchloroethylene **679**
Urinary biomonitoring, Association of exposure to polycyclic aromatic hydrocarbons (estimated from job category) with concentration of 1-hydroxypyrene glucuronide in urine from workers at a steel plant **593**
Urinary cadmium, Enzymuria in a population living near a cadmium battery plant **770**
Urinary mandelic acid, Impaired colour discrimination among workers exposed to styrene **534**
Urine, Effect of dietary intake of trimethylamine on human metabolism of the industrial catalyst dimethylethylamine **478**
Urine analysis, Monitoring of exposure to methylpentanes by diffusive sampling and urine analysis for alcoholic metabolites **757**

Vaccination, Need for vaccination of sewer workers against leptospirosis and hepatitis A **505**
Vanadium, Upper airway response in workers exposed to fuel oil ash **353**
Vibration
Acute effects of vibration on digital circulatory function in healthy men **834**
Neuropathy in female dental personnel exposed to high frequency vibrations **116**
Vibration induced white finger
Prognosis of vibration induced white finger **110**
Dose-response relation for vascular disorders induced by vibration in the fingers of forestry workers **722**
Vibration perception
Acute effects of vibration from a chipping hammer and a grinder on the hand-arm system **731**
Dose-response relation between exposure to two types of hand-arm vibration and sensorineural perception of vibration **332**
Vibration sensitivity, Neurotoxicity among pesticide applicators exposed to organophosphates **648**
Vinclozolin, Study of morbidity of personnel with potential exposure to vinclozolin **233**
Viscose rayon, Polyneuropathy induced by carbon disulphide in viscose rayon workers **404**
Vision, Ocular effects of exposure to triethylamine in the sand core cold box of a foundry **337**
Vocational school, Pre-employment screening among trainee bakers **279**
Volatile aromatic hydrocarbons, Determination of low level exposure to volatile aromatic hydrocarbons and genotoxic effects in workers at a styrene plant **420**
Volatile organic compounds, Asthmatic symptoms and volatile organic compounds, formaldehyde, and carbon dioxide in dwellings **388**

Welders, Respiratory health of young shipyard welders and other tradesmen studied cross sectionally and longitudinally **33**
Welding, Chronic effects of welding exposure on pulmonary function tests and respiratory symptoms **800**
Wollastonite, Fibrogenic effect of wollastonite compared with asbestos dust and dusts containing quartz **621**
Work conditions, Work characteristics and lifestyle as predictors in the development of chronic non-specific lung disease among elderly municipal employees **134**
Workers, Factors affecting recognition of cancer risks of nuclear workers **515**
Work stress, Lorry drivers' work stress evaluated by catecholamines excreted in urine **464**
Workwear, Exposure to polycyclic aromatic hydrocarbons in coal liquefaction workers **600**

Zambia, How have Zambian businesses reacted to the HIV epidemic? **565**
